**Listing of Claims:**

1-10. (Canceled)

11. (Previously Presented) A lens array comprising:

a plurality of lenses each of which has a convex lens surface;

a holder portion for holding the lenses; and

a light-shielding member provided at the holder portion;

wherein the light-shielding member overlaps a circumferentially peripheral portion of each lens surface;

wherein the light-shielding member includes a first light-shielding layer and a second light-shielding layer which are made of different materials, the first light-shielding layer overlapping the circumferentially peripheral portion of each lens surface, the second light-shielding layer being formed at the holder portion so as to surround the first light-shielding layer.
